Office: #7581, 1205 University Ave, Madison, WI 53706

Department of Computer Sciences

University of Wisconsin–Madison

Education

- 2024–on **PhD in Computer Science**, University of Wisconsin–Madison, Advisor: Prof. Xiangyao Yu
Relevant Coursework: Foundations of Data Management, High Performance Computing for Applications in Engineering, Game Theory, Optimization & Learning, Foundation Models
- 2023–2024 **MSc in Computer Science**, Carnegie Mellon University, Advisor: Prof. Andrew Pavlo
Relevant Coursework: Advanced Database Systems, Advanced Operating Systems and Distributed Systems, Deep Learning Systems, Computer Architecture
- 2018–2021 **BSc in Computer Science**, Carnegie Mellon University, Graduated with University Honors
Relevant Coursework: Operating System Design and Implementation, Database Systems, Optimizing Compilers, Introduction to Computer Security, Computer Graphics

Research Experience

- 2024–on **University of Wisconsin–Madison**, PhD researcher, Supervisor: Prof. Xiangyao Yu
Researching GPU-accelerated database systems, string matching, and memory compaction.
- 2023–2024 **Carnegie Mellon University**, Master’s researcher, Supervisor: Prof. Andrew Pavlo
Researching the database system extensibility ecosystem.
- 2020–2021 **Carnegie Mellon University**, Undergraduate researcher, Supervisor: Prof. Andrew Pavlo
Utilizing just-in-time (JIT) compilation techniques to increase index key comparator performance.
- 2019–2020 **Carnegie Mellon University**, Undergraduate researcher, Supervisor: Prof. Afsaneh Doryab
Researched the correlation between student performance and lifestyle factors, using data collected from smart devices.

Publications

- 2026 HetMatch: GPU-Accelerated Heterogeneous String Pattern Matching. **Abigale Kim**, Xiangyao Yu. ADMS @ VLDB 2026.
- 2026 Rethinking Analytical Processing in the GPU Era. Bobbi Yogatama, Yifei Yang, Kevin Kristensen, Devesh Sarda, **Abigale Kim**, Adrian Cockcroft, Yu Teng, Joshua Patterson, Gregory Kimball, Wes McKinney, Weiwei Gong, Xiangyao Yu. CIDR 2026.
- 2025 Anarchy in the Database: A Survey and Evaluation of Database Management System Extensibility. **Abigale Kim**, Marco Slot, David G. Andersen, Andrew Pavlo. VLDB 2025.
- 2021 Understanding Health and Behavioral Trends of Successful Students Through Machine Learning Models. **Abigale Kim**, Fateme Nikseresht, Janine Dutcher, Michael Tumminia, Daniella Villalba, Sheldon Cohen, Kasey Creswel, J. Creswell, Anind Dey, Jennifer Mankoff, and Afsaneh Doryab. IHIT-AI 2021.

Talks

- 2025 What PostgreSQL Extensibility Can Teach Us About Composable Data Management Systems, CDMS @ VLDB 2025. [\[Slides\]](#)
- 2025 Anarchy in the Database: A Survey and Evaluation of Database Management System Extensibility, DuckDB in Science Meetup 2025. [\[Slides\]](#)
- 2025 Anarchy in the Database: A Survey and Evaluation of Database Management System Extensibility, VLDB 2025. [\[Slides\]](#)

2024 Anarchy in the Database: A Survey and Evaluation of Database Management System Extensibility, PGConf.dev 2024. [\[Slides\]](#) [\[Video\]](#)

2023 Database Management System Extensibility, Parallel Data Retreat 2024. [\[Slides\]](#)

Posters

2026 GPU Accelerated Heterogeneous String Pattern Matching. Midwest Data Day 2026. [\[Poster\]](#)

2025 Anarchy in the Database: A Survey and Evaluation of Database Management System Extensibility, VLDB 2025. [\[Poster\]](#)

2025 GPU Databases - The New Modality of Database Analytics, University of Wisconsin-Madison, Prospective Student Visit Days 2025. [\[Poster\]](#)

2023 Survey of Database Management System Extensibility, Parallel Data Retreat, 2023. [\[Poster\]](#)

Experience

2026-on **NVIDIA**, Systems Software Engineering Intern

Worked on GPU-accelerated string and Parquet Variant processing with the cuDF team.

2024-2024 **TileDB Inc.**, Software Engineer

Developed a Rust API for the TileDB storage engine.

2022-2023 **TileDB Inc.**, Software Engineer

Redesigned query engine to support complex predicates. Worked on data pipelining features.

2021-2021 **YugabyteDB**, Software Engineering Intern

Implemented cluster mapping-update integration during asynchronous tablet split.

2020-2020 **Amazon Web Services, Redshift**, Software Development Engineering Intern

Designed and implemented a scalable service improving Redshift database cold-start performance.

2019-2019 **Amazon**, Future Engineer Software Development Engineering Intern

Developed web publishing platform used by 6,000 Amazon content merchandisers.

Awards

2025 **First Year Summer Fellowship**, Awarded summer funding to academically exceptional first year PhD students.

2022 **Senior Leadership Recognition**, Awarded to graduating seniors from Carnegie Mellon University who have made an unparalleled impact on the CMU community.

2022 **University Honors**, Awarded to graduating seniors from Carnegie Mellon University who graduated with a GPA above 3.5.

2021 **Michael Blaine Burks Scholarship**, Merit scholarship awarded to one student per year for demonstrated intellectual curiosity and perseverance in computer science.

Teaching

2023-2023 **Carnegie Mellon University**, Database Systems Teaching Assistant

2021-2021 **Carnegie Mellon University**, Database Systems Teaching Assistant

2021-2021 **Carnegie Mellon University**, Introduction to Computer Systems Head Teaching Assistant

2020-2021 **Carnegie Mellon University**, Introduction to Computer Systems Teaching Assistant

2019-2020 **Carnegie Mellon University**, Principles of Imperative Computation Teaching Assistant

Service

2024-on **Women of the ACM Club Graduate Vice President**, Mentored several women undergraduates, helped organize events for the graduate student body and run logistics for the club.

2023-2023 **07-070, Teaching Assistant Panelist**, Was selected as a panelist for 07-070 (Teaching Techniques for Computer Science), a course teaching first-time TAs teaching techniques and DEI issues.

- 2022-2022 **Carnegie Mellon SCS Tour Guide**, Offered important information and advice about Carnegie Mellon's Computer Science program to prospective undergraduate students.
- 2020-2021 **Carnegie Mellon CS Education Group**, Participated in important discussions about computer science education with other passionate members of the CMU community.
- 2018-2021 **Carnegie Mellon Women@SCS**, Mentored several women underclassmen in the School of Computer Science and organized the Women in Systems panel, an event to highlight computer systems to women undergraduates.
